

Canal Winchester Local Schools

Can now be found on

School Central is a new web-based communications platform currently being utilized by the Canal Winchester Schools. School Central employs the latest communication technologies available to help keep parents notified of important news and upcoming events with a built in real time notification system.

When an update or alert is sent out from School Central, users can choose how they want to receive the information. It can be received as an e-mail message or as a text message or as both.

They can also choose from which buildings or groups they want to receive notifications. In addition to receiving alerts from any of the school buildings, users can also choose to receive last minute cancellations or schedule changes from sport teams, bus route updates from the transportation department or important announcements concerning Summer School. They can also choose to only receive alerts from the district such as school delays or cancellations.

Signing up for a School Central Online Account is easy to do:

- 1) Go to <http://canalwin.yourschoolcentral.com>
- 2) Click on the “Sign up for an account” on the right of the screen and fill in the required information.
- 3) Provide your cell phone number if you want to receive text messages.
- 4) Select the buildings and groups from which you want to receive information.
- 5) Complete activation of the account through e-mail.

For more information, including an online Users Guide, click on the “School Central” link provided on the Canal Winchester Schools Web Site: <http://www.canalwin.k12.oh.us>
